

# REPAIR OR REPLACE?

# GREATARIO

Asset Managers have to make investment decisions based on the assessment and management of risk in determining whether assets should be maintained or replaced.

**IT IS OFTEN MORE ECONOMICAL TO REPLACE YOUR EXISTING WELDED STEEL TANK WITH A GREATARIO GLASS-FUSED-TO-STEEL TANK!**

**A GREATARIO tank:**

- NEVER needs to be repainted
- Low Upfront Capital Costs
- Low Maintenance Costs

**Burks Falls, ON**

Our team built a new 8.53m x 28.35m Greatario glass-fused-to-steel standpipe to replace an existing welded steel tank.

**Norwood, ON**

Our team built a new 7.62m x 28.35m Greatario glass-fused-to-steel standpipe to replace an existing welded steel tank.

**Rockwood, ON**

Our team built a new 13.7m x 26.8m Greatario glass-fused-to-steel standpipe to replace an existing welded steel tank. The existing 20 year old tank was removed for scrap.

**STOP** **REPAINTING YOUR TANK!**
